

JICA's wide-ranging cooperation for recovery and reconstruction of Ukraine

Russia's aggression against Ukraine is an outrage that has shorten the foundation of the international order base on universal values such as freedom, democracy, and human rights

JICA supports for the recovery and reconstruction of Ukraine through a wide range of cooperation, including financial support, provision of technical cooperation and equipment for reconstruction etc. under the three pillars, according the Human Security Approach.

- 1 Support continuance of government functions
- 2 Assist neighboring host countries and Ukrainians displaced by the invasion
- 3 Conduct recovery and reconstruction support

In the third area of "Conduct recovery and reconstruction support", it is particularly necessary to support efforts that range from immediate short-term support to medium- to long-term support that will be necessary in the postwar period. JICA's Cooperation will focus on four areas:

JICA reopened its office in Kyiv, Ukraine, and the First Chief representative of JICA Ukraine Office and his deputy started their activities in Kyiv since January 2024. JICA will enhance its operations for Ukraine promptly and reliably.
